NO NEW FEATURES IN FEVER SITUATION

There Has Been No Clash Between State Troops.

GOV. VARDAMAN'S STATEMENT

Strict Quarantines Are Being Placed Against Those Places Where the Disease Has Appeared—Much Excitement Prevails Over the South.

New Orleans, August 4.—The fever situation presented no new features today. There were early reports of two deaths at the Emergency hospital and the prospec twas that with numbers of very selous cases rooted out yesterday by the inspectors there would be still more fatalities recorded during the day. No physical clash has been reported by the armed forces of Louisiana and Mississippi and there was an increasing likelihood that good sense will prevail and that hereafter there will be no trespassing by the people of either state on the preserves of the other. There is not a sign of amelioriation in the quarantine conditions, though the marine hospital service is gradually bringing about a better understanding with the authorities in other states to the end of enabling travelers to proceed to their destinations after due detention. One hundred thousand copies of Dr. White's letter concerning the inability of freight to carry infected mosquitoes and 50,000 of Major Walter Reed's mosquito tests in Cuba have been printed in circular form and begah to go out in today's mail to every city and cross roads in the south.

Aside from prosecuting vigorously sanitary measures all the energy of the commercial public here is being devoted to the effort to educate the panic-stricken people of the south that they run absolutely no risk of infection through commercial intercourse with New Orleans. Reoiling and screening of cisterns went forward with great vigor and enthusiasm today. Not all those who have been assessed on their business rating for contributions to the citizens' fund to assist in stamping out the disease have answered, but there is ample money in the hands of the citizens' committee to meet the large expenditures required by the campaign.

Italians Conceal Their Cases.

Concealment until their cases are almost hopeless and utterly inadequate treatment until they fall into the hands of a doctor, are considered as partly responsible for the heavy mortality among the unfortunate Italians who fall victims to attacks of yellow fever. It is said investigations have shown that heavy food, like maccaroni and bananas, has been taken by members of the race after the fever has fastened its clutch on them. That means almost certain death, for in the treatment now prescribed by the doctors, no solid fod of any kind is given during seevral days of a patient's illness. Milk is the principal diet with alkalin waters and the juice of water melon to work on the kidneys. To allay nausea the doctors pprescribe small pieces of ice to be dissolved in the mouth.

Many of the Italians die because they do not get this treatment until too late. Comparatively few outside of Italians have been attacked and some of these exceptions are alreday on the streets little the worse for their illness. The situation today continued to be viewed with something like optimism by those immediately in charge of the fight. The public is warned not to be alarmed by the number of cases and deaths that are more numerous than they were a week ago and the doctors are saying that for some time probably, even with the most favorable progress, there will be cases and fatalities. But so long as there is no serious infection in the modern section of the city, that is the large district which lies above Canal street the doctors refuse to believe that there is any charge of the disease assuming a general epidemic form.

The excitement in the country is not allayed but seems to have grown more acute with the discovery of cases at other points. In this connection the doctors here are disposed to question whether all the cases that appear can properly be traced to New Orleans.

Gov. Vardaman's Statement.

Cincinnati, August 4.—The Times-Star has the following dispatch from Governor Vardaman, of Mississippi, concerning the clash between his state and Louialna:

"Jackson, Miss., August 3.—The much-talked of conflict between the states of Mississippi and Louisiana so far as I know, is without justification fact. If the quarantine guards of ssissippi have been guilty of dision it has not been reported to me by the officer in charge of the guards and I cannot believe that they have done anything wrong. I have instructed the guards to remain on Mississippi soil and to be careful in the enforcement of of the quarantine regulations promulgated by the Mississippi state board of health; not to do anything improper. The intimation of an armed conflict between the states of Mississippi and Louisiana, whose friendship has been so cordial and of such long standing, is absolutely ridiculous to me. I shall not permit the quarantine guards or any other Mississippian to violate the rights of Louisiana or her people, and I am sure the honorable governor of Louisiana reciprocates that sentiment. (Signed) James K. Vardaman, governor."

Savannah Quarantines Louisiana.

Savannah, Ga., August 4.—Following the recommendation of the sanitary commission, the resolution of council empowering him to do so. Mayor Myers has issued a proclamation declaring a quarantine against persons and personal baggage from New Orleans, the entire state of Louisiana and all points now infected with yellow fever. Special sanitary inspectors have been appointed to board all incoming trains and stop all persons unable to show they have not been in Louisiana within six days.

Columbus Officers Watch Trains.

Columbus, Ga., August 4.—The city council has declared a quarantine against all cities where yellow fever exists or may exist. Officers will be placed on all incoming trains. The period of absence from fever infected localities required will be 20 days, otherwise admission to Columbus will be denied.

Brunswick Bars Savannah.

Brunswick, Ga., August 4.—At a special meeting of the local board of health and city council it was decided to put on a rigid quarantine against all infected and suspected points. A quarantine was also declared against all southern ports, including Savannah.

Situation at Montgomery.

Mobile, Ala., August 4.—A special to The Item from Montgomery, Ala., says:

At noon today the local board of health reports that there is still not even a suspicious case of yellow fever in Montgomery, with the excepeion of that at the Emergency hospital.

All indications are favorable and confidence has been restored. It is believed there will be no more cases. There are only 42 cases of other sickness in the city. It is hoped a number of the towns which have quarantined will lift them today.

It is regarded as an absurdity by local physicians for Birmingham to have put on a quarantine. The panicky feeling has completely passed off and everything has resumed its normal condition. The exodus from here today was nothing abnormal. The patient at the Emergency hospital is reported as recovering.

7,500 Eagles Form Parade.

Providence, R. I., August 4.—One of the biggest street processions of civilians ever seen in the streets of Providence was the feature of the field day of the New England League of the Fraternal Order of Eagles, held at Crescent Park today. Every state in New England was represented among the 7,500 men in the parade. New York city was present with a large delegation.

REPORT OF BUREAU ON COTTON CROP

Agricultural Department Gives Out July Estimate.

17 PER CENT LOWER THAN 1904

Averages by States Is Given Out by Statistical Board at Washington—Estimate Shows a Large Decrease Compared to Last Year's Crop.

Washington, August 4.—The following report on the condition of the cotton crop was issued by the statistical board of the department of agriculture at noon today:

"The crop estimating board of the bureau of statistics of the department of agriculture finds from the reports of the correspondents and agents of the bureau that the average condition of cotton on July 25 was 74.9 as compared with 77 on June 25, 1905; 91.6 on July 25, 1904; 79.7 on July 25, 1903, and a ten-year average of 82.6. By states the averages are:

Texas 71, Georgia 82, Alabama 79, Mississippi 69, South Carolina 79, Arkansas 68, Louisiana 66, North Carolina 80, Indian Territory 82, Tennessee 89, Oklahoma 83, Florida 85, Missouri 85, Virginia 78.

MOODY BACK AT WASHINGTON.

Attorney General Will Look Into Many Legal Matters.

Washington, August 4.—Attorney General Moody was at his desk in the department of justice today.

In speaking of the reasons for his return to Washington at this time, he said that there were several matters of considerable importance which required his presence here, among them being that of a successor to Mr. Cotton, who recently was appointed United States District judge in Oregon, in place of Judge Bellinger, deceased. Mr. Cotton had accepted the position, but for business and private reasons has withdrawwn his acceptance.

There are also several matters of trust litigation which require his attention. In answer to an inquiry concerning the cotton investigation the attorney general said that he had been in close touch with the investigation from its origin, but desired a further personal conference with District Attorney Beach. Mr. Moody said that Mr. Beach was quite able to properly conduct the investigation without any assistance from him or any one, but that as this was a matter of personal housecleaning of the administration, it seemed fitting that the head of the department of justice should keep in close touch should matter assume a personal responsibility with reference to it, and the president and with the country.

The attorney general had a conference with Mr. Beach today. The district attorney said that the grand jury now investigating the cotton leak would tawe a recess today until the 15th. He explained that the adjournment of the grand jury was in consequence of the fact that additional evidence was expected from distant points which could not be obtained before that time.

Woman Injured in Wreck.

Johnstown, Pa., August 4.—A train from Rockwood to Johnstown over the Baltimore and Ohio railroad was wrecked today at a point between Border and Foustwell, 8 miles from this city. One woman was fatally injured, another probably so and half a dozen others so badly hurt that they had to be taken to the hospital, while a large number were scratched and bruised.

Negro Business Men Meet.

New York, August 4.—The National Business Men's League of which Booker T. Washington is president, will hold its sixth annual convention in this city on August 16, 17 and 18. Four hundred negro business men, representing every state in the union, are expected to attend.

CHILD LABOR BILL PASSED.

Vote Stood 103 For and 62 Against In House.

Atlanta, August 4.—The child labor bill introduced by Hon. Madison Bell, of Fulton county, passed the house today by a vote of 103 for and 62 against.

For the first time during the present session, the house met at 9 o'clock Thursday morning, and the attendance was unusually large, the early hour being considered.

After prayer by Chaplain Timons the roll was called and th journal read and after debate on the child labor bill was resumed. According to agreement the debate was limited to 40 minutes, 20 minutes to each side. Mr. Longley, of Troup, the first signer of the minority report, leader of the opposition, was the first speaker. He ridiculed the bill at some length, saying the caption should say, "A bill to reverse the order of government in the home, to aid the New England cotton mills and to encourage idleness."

Mr. Bell designated Mr. Wright, of Floyd, to conclude the argument. The speaker then proceeded to a most effective argument in interest of the bill. He eliminated the sentiment connected with the bill and argued facts with such force that he held the undivided attention of his hearers.

At the conclusion of his speech Mr. Wright was loudly applauded and Speaker Slaton was forced to threaten to clear the gallery.

In the Senate.

After thoroughly considering every phase of the law governing the common school of Georgia the senate on Wednesday passed the bill offered by Senators Steed, Bennett and Hogan, amending and codifying the school laws of the state.

Among the important changes from the old law as acted upon favorably by the senate Wednesday are the following:

The salaries of teachers need not be itemized on monthly statements, as at present, but shall be itemized on the final statement. Whenever the reports required by the state school commissioner or superintendent of local school system are not forwarded within a reasonable length of time the school funds belonging to the school from which reports are wanted shall not be sent out until such reports are properly filed.

Disbursements shall be made by the county school commissioner within 10 days after the receipt of the funds.

After 1906 the school year shall begin September 1 instead of January 1. The estimate of the school fund shall be made August 1, of each year, instead of the first Tuesday in December, as at present.

The section in the old law providing for the net amount arising from convict hire in the state was omitted from the new law.

The teachers' institutes may be from one to four weeks in length instead of being confined to one week, as at present.

Any county school commissioner shall, upon request from any other county school commissioned, send the latter certificates regarding teachers' licenses.

Permanent licenses issued in another state shall be good in Georgia.

New Counties Heard From.

"Atkinson" county, proposed to be taken from the counties of Appling, Pierce, Coffee and Ware, was the first business before the new county committee Wednesday.

"Atkinson" differs from the other new county propositions in that there are two proposed county sites, Alma and Rockingham, the bill providing for the new county specifying that the people of the new county shall decide between the two towns by an election.

"Trenlen" county, which pproposes to take its territory from the counties of Troup, Meriwether and Harris, had its charter not presented to the committee. Quigley is the proposed county site of the new county.

Large Attendance at Exposition.

Portland, Ore., August 4.—The Lewis and Clark exposition directors announce that with the attendance yesterday of 27,256 the million mark has been passed, the total attendance from June 1 to date including passes being 1,013,531.

MISTRIAL PROBABLE IN SANFORD CASE

Mother of One of the Jurymen Reported to be Dying.

SANFORD MAKES HIS STATEMENT

Judge Wright Ruled Out Such Matters In Statement that Had No Bearing on Case—Prisoner Was Overcome With Emotion Several Times.

Rome, Ga., August 4.—[illegible] recess in the Sanford [illegible] this morning on account of [illegible] of Juryman W. A. Broach, who is said to be dying [illegible] in the country. The recess was until 2 o'clock this afternoon and Deputy Sheriff Broach accompanied him to his bother's bedside. General Ennis had finished his speech for the state and Attorney Wright was just beginning his speech for the defense. There will be three speeches on each side unlimited.

Sanford's Statement.

The climax of the trial of [illegible] T. Sanford for killing [illegible] was reached late Wednesday afternoon when the defendant took the stand and made his statement to the jury.

He recounted in detail the occurences which led him to believe Mrs. Sanford and Wright were too intimate and which led Sanford to kill Wright on sight.

Twice during the recital Sanford lost control of himself and was forced to stop talking, as sobs choked his voice and tears coursed down his cheeks.

Sanford's emotion overcame him when referring to his children.

A striking incident occurred when Mr. Sanford attempted to introduce in his statement matter relating to currences at the Hotel Ritz-Carlton in Atlanta and other things that had come to his knowledge since the killing. "You must not refer to the actions of Mr. Sanford," said the judge when he ruled that that testimony is not admissible and I cannot permit it in your statement."

Mr. Sanford commenced to read his statement at 2:20 and spoke for an hour and ten minutes. He was allowed to read the statement, but was compelled to put down his manuscript, and only referred to notes from that time to the close. The statement was very long and dealt largely with matters relating to things not material to the trial.

MAGNETIC SURVEY OF PACIFIC

Will Endeavor to Secure Precise Data of Distribution of this Force.

San Francisco, August 4.—A magnetic survey of the Northern Pacific ocean will be inaugurated within the next few days by the department of international research in terrestrial magnetism of the Carnegie institution of Washington.

A wooden sailing vessel, the Galilee, has been fully equipped for the purposes of the expedition. She will report, and it is expected that she will sail the latter par of the week on her first season's work.

The object of the expedition is to secure precise data of the [illegible] of the magnetic forces over the Pacific ocean. Except for [illegible] occasional expeditions and the charts used by the navigators [illegible] long time ago, the present charts used by the navigators in this region depend largely upon observation on islands and coasts. Such land observations are rarely representative of the [illegible] ues because of prevailing disturbances. It is, therefore, impossible to make any statement as to the correctness of the present charts.

Jury Out Only Three Minutes.

Waco, Texas, August [illegible] in the case of Sank [illegible] negro, charged with killing Mrs. B. Robert, wife of a farmer, near Golinda, the 11th last, returned a verdict in three minutes, placing punishment at death.

GAINESVILLE BOOK BEFORE THE PUBLIC

Will be Presented to the People of This City Today.

AN ATTRACTIVE DIRECTORY

As Printed on Fine Paper, Bound in Cloth, and Will Serve Not Only as an Agent of Information, but an Ornament as Well—Demand is Good.

Gainesville at last has a complete and up-to-date directory, a work which will compare favorably with anything of the kind in the South, and in keeping with other modern improvements in this city. While it is not the first directory ever published of the city, it is by large odds the most complete and only first-class work of the kind presented to the public.

Five years ago Jesse E. Burtz, the compiler of the present work, issued a small pamphlet directory of seventy-six pages, which was sufficient to accommodate the city at that time. This work was also as complete as it could be made five years ago, but the advancement of the city has been so rapid, and the improvements so many, that something more elaborate and business-like was demanded, which led to the publishing of the Gainesville Directory for 1905-6. This book is handsomely and substantially bound in cloth, and contains between covers 116 pages. It is printed on the highest class of toned book paper, 120 pounds to the ream, and will serve not only as an agent of valuable information, but an ornament to any office.

This work is a complete encyclopedia of the city. It begins with a directory of general information, giving the names of the circuit, county and city officers, City Council, Board of County Commissioners and school board, together with the members of each board and their address, and the time of meeting. It gives a complete list of churches and secret societies, white and colored, together with location, officers, meetings, etc., schools, fire department, together with a list of alarm boxes and their location, officers of the department and the various companies comprising the department and in fact everything of a general nature, with full information as to officers, etc., in each instance.

Following the directory of general information appear the names of all white residents of the city over the age of eighteen years, together with their occupation, name and number. This is followed by a similar list of the colored people, the book concluding with a professional and classified business directory, alphabetically arranged, so that immediate reference may be made to business or profession.

The book is neatly illustrated with half-tone cuts on alternating pages, which makes it very attractive, relieving the same of that monotony and sameness usually noticeable in a work of this kind.

From the preface it is learned that Gainesville now has a population of 5,264, an increase over 1899 of nearly seventy-five per cent. Of this number 2,826 are whites and 2,427 are colored.

This book [illegible] production of the [illegible] and is a [illegible] city.

[illegible] will be on [illegible] Vidal & Co. and [illegible], and as a great [illegible] sales have been made [illegible] tion, it would be well for [illegible] desiring a copy to secure same without unnecessary delay.

A Family Relic.

L. A. Jernigan has in his possession something of a curiosity in the nature of a Swiss hand-made watch, which has been in the Cannon family for the past one hundred and fifty years, having been brought to this country from Europe by the Cannon ancestors prior to the Revolutionary war. The case is of solid gold, but worn almost as thin as paper.

Notwithstanding that the watch is somewhat antiquated from the style of the present day and has naturally seen hard and constant service, it is yet an excellent time-keeper and for the past week has been doing twenty-four hours' work a day. It is now owned by Mrs. George M. Colman, one of the descendants, and is naturally prized very highly.

LIFE INSURANCE BUSINESS.

It Is Assuming Immense Proportions Throughout the Country.

As the best evidenc that the life insurance business is steadily increasing throughout the country, the business of the New York Life alone may be taken as a basis. Agent W. E. Dow of this city has received a telegram from John A. McCall, president of the company, to the effect that the July business represented over 17,500 applications. Mr. McCall adds: "This handsomely exceeds the record of May or June. I rely upon every fieldman to do his utmost during August."

Mr. Dow states that in this increase Florida has received her share of the business and life insurance is becoming more of a business proposition in this section, especially among men of moderate means who have families dependent upon them, every year. His business so far this year exceeds any year for the same period since he has been a life insurance solicitor.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good, and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

Dr. Strouse in California.

A letter from Dr. Clarence B. Strouse dated San Francisco, California, July 28, bears information that he is assisting in a glorious meeting there. A San Francisco paper says: "Dr. Clarence Strouse preached one of the greatest sermons ever heard in San Francisco at Trinity church Sunday. Dr. Strouse has been invited with Dr. Chapman to conduct union services here next winter."

As a matter of course, while the compliment was great and deserving, Dr. Strouse will not accept the invitation, but will arrive in Gainesville in plenty of time for the opening of the Winter Bible Conference. A number of the finest pulpit orators and Bible students in the United States have already been engaged for the Conference here and the Chautauqua features will also be good.

Herbine

Renders the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and over indulgence in food and drink. G. L. Caldwell, agent M. K. & T. R. R., Checotah, Ind. Ter., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." 50c. Sold by W. M. Johnson.

Captured Big Cat.

Sheriff Fennell retains his reputation as a fox and wild cat hunter. On Thursday afternoon he took his dogs to Tiger Bay, a short distance from the city, and it did not require many minutes to "jump" an immense cat. After a lively chase and some fighting between his catship and the dogs, the animal was captured alive. The sheriff, however, permitted the dogs to kill it later, and the prize was brought home.

The cat tipped the beam at forty pounds. Its hide will be preserved as a souvenir.

Peculiar Disappearance.

J. D. Runyan of Butlerville, O., laid the peculiar disappearance of his painful symptoms of indigestion and biliousness to Dr. King's New Life Pills. He says: "They are a perfect remedy, for dizziness, sour stomach, headache, constipation, etc." Guaranteed at all drug stores; price 25c.

NINE HOURS' TIME OR NOTHING DOING

That is the Stand Taken and Being Carried Out by Strikers.

EMPLOYERS MUST BE FAIR

That is All Required by the Union Carpenters and Joiners Who Went on Strike—No New Developments, but Men Are Firm and Propose to Stick.

There have been no new developments in the carpenters' and joiners' strike since it was declared on the 1st inst. The carpenters claim that they only asked for what they considered a fair deal—the reduction of one hour in the working-day, and that they propose to gain their point or hunt new fields.

"We are not at all unfair," remarked one of the carpenters Friday, "as any man posted on the situation knows. The contractors and employers know this as well as we, if they would admit it. They know it in their own souls, anyway.

"If this concession of one hour should be granted, the contractors would get just as much work, and probably a little better service, as the men would feel encouraged. They would not feel so much as they have been feeling, that they were giving their time away for a mere laborer's compensation, and that they were being worked like common labor."

A few of the contractors are having no trouble, and on all jobs where the nine-hour system has been in force, the men never laid down their tools.

Attention, Voters.

We wish to inform the patrons of The Sun that no votes are allowed in the Library contest on money paid for advertising in The Sun. Only those who pay the sum of $1.25 or over on subscriptions to The Daily Sun or those who pay cash for job printing will be allowed to vote.

Those who pay $1.25 will be allowed 75 votes for the organization of their choice; $2.50 entitling them to 200 votes, and $5 will entitle them to 500 votes.

A Touching Story

Is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all drug stores; 50c and $1; guaranteed. THE BOND VOTE NEXT TUESDAY

People Will Decide on Bonding Issue Amounting to $50,000.

EVERY VOTER IS FAVORABLE

As Far as Can be Ascertained the Issue Will be Carried Unanimously—The Funds to be Used for Purpose of Securing Educational Facilities.

Next Tuesday will be an important day in the history of Gainesville, for upon that day, with the ballot, the destiny of the city from an educational standpoint will be decided by the people.

On July 3rd of the present year the City Council, ever awake to the interests of Gainesville, commercially, educationally or otherwise, passed unanimously an ordinance providing for the calling of a special election on Tuesday, August 8, to determine whether or not the city should issue bonds in the sum of $50,000 for the purpose of securing additional advantages and facilities in or adjacent to Gainesville. This ordinance was authorized by special act of the Legislature at its last session.

The people of Gainesville, as has already been demonstrated on divers occasions, and never more forcibly than in the fight for the State University, are as a unit on educational progress, and it is safe to assert that the bond issue will be carried by an overwhelming majority. In fact, it is not believed that a score of voters can be found who will oppose the move by the ballots, and it is doubtful whether there will be a dissenting vote.

The election will be held in the municipal building, and the inspectors will be W. L. Hill, W. S. McDowell, D. A. Robertson, and F. X. Miller, clerk. The polls will open at 8 o'clock and close at sundown.

A great deal of interest is being manifested in educational matters now, and it is believed the people will show their enterprise by polling a unanimous vote.

IMPORTANT NOTICE

To All Teachers and Applicants for Schools in Alachua County.

Editor Sun: The law provides for two examinations in each county per annum, the object being to grant certificates to all who secure the legal per cent. These examinations cost a considerable amount and should be patronized by all who wish to teach in their home county. In fact, there was an order passed by the Board of Public Instruction several years ago requiring this. It has been a dead letter, but it is my duty and pleasure as superintendent to see that all orders are effective.

I regret that so many who wish to teach have gone from their home county to secure certificates. I had expected to enforce the order of the school board, but have decided that it is barely possible that I would do some an injustice, and have decided, therefore, as that notice has not been given not to require those who have gone from home for their certificates to stand an examination before allowing them to teach.

From this date any citizen who goes out of this county and secures a certificate other than a State certificate will not be permitted to teach until they are examined in Alachua county. There is no better county than Alachua and all who expect to teach must be loyal to her, and it will hereafter require this much to get my endorsement.

YELLOW FEVER.

Several New Cases at New Orleans. News From Montgomery.

New Orleans, Aug. 4—The fever does not abate any. Up to noon there was only one death, but 17 new cases were reported. There is much hope of gaining on the infection in a few days.

There is a desire among many who are thrown out of work to try and get in their graft for government support.

Montgomery, Ala., Aug. 3.—Governor Jelks is at the capital and says he will watch the interests of every town in the state, however small.

Houston, Tex., Aug. 4—A suspicious case near here has caused much alarm and a shot gun quarantine has been put into effect.

Charleston, S. C., Aug. 4—A strict quarantine has been established here against New Orleans and all Southern ports.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

THE NEWS FROM ALACHUA.

Transfer of City Lots—Cotton Held Back by Rain—Other Notes.

Alachua, Aug. 4.—C. W. Stephens, Saturday, purchased from J. C. Sheffield the vacant lot in front of O. M. Futch's. This is one of the best lots in the city. Mr. Stephens will at once begin the erection of two handsome residences.

The many friends of Miss Maria Turner regret to know that she is confined to her bed with fever.

Edgell Guinn and Bennie Wetherington were before Mayor Pearce this week charged with fighting. Wetherington was turned loose, but Guinn plead guilty and was fined $1 and costs.

Miss Maud Inman of Plant City is the guest of friends here.

R. E. Dell spent several days here this week.

The wires are being stretched for the telephone system. This will be one of our needed improvements and our people are glad to see the system put in.

C. A. Williams is offering five cents per pound for seed cotton. This price is good to and including August 9th.

Crop reports are very favorable. A good deal of cotton is opening, and were it not for the continued rains it would only be a short time until same would be on the market. It is understood that C. A. Williams and the Williams Company will be heavy buyers of the fleecy staple this season, and it is safe to say that Alachua will hold her own for good prices for cotton.

M. A. Densler of High Springs visited the city Wednesday.

Mr. and Mrs. B. W. Cato are being congratulated over the arrival of a fine boy, which has been with them since Tuesday.

Mr. Joiner of LaCrosse has accepted a position at Bishop's drug store.

Mrs. W. H. Sealey and daughter, Doris, have returned after a visit to relatives at Barney, Ga.

W. H. Berry is suffering from a bone felon on his finger.

W. H. Traxler was in the city Monday on his return from Gainesville.

Dr. Jim Bishop of Newberry was in the city Thursday.

Pat Hubbard visited High Springs Thursday.

Public is Aroused

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at all drug stores; price 50c.

MISS CAMP FETED.

Prominent Florida Young Lady Entertained in Atlanta.

Owing to the popularity of the young lady, who was formerly a frequent visitor and has many friends here, the following from a recent number of The Atlanta Journal will be read with interest:

"Miss Sallie Camp of Ocala, Fla., who is with the Misses Scott, is an especially popular visitor. A beautiful reception was giving in her honor one evening this week at the hospitabe Scott home, only the unmarried set being present. Parlors, library, hall and dining-room were opened and beautifully decorated. Dancing and cards were the amusements of the evening, and all manner of refreshments and cooling things were served.

"Miss Mary Jones and Miss Margaret Coggins entertained charmingly in Miss Camp's honor. The broad porches and lawn of the Coggins' home were swung with Chinese lanterns, and palms, ferns, rugs and easy chairs made an attractive picture. Indoors, brilliant lights and a wealth of cut flowers made the scene equally inviting. Progressive anagrams was the game of the evening, and was much enjoyed by those present. A number tied for the first prize, which was finally given to the guest of honor. Mr. Yates of Atlanta won the 'booby.' After the contest delicious punch, cakes and cream were served.

"A small party, consisting of Miss Camp, the Misses Scott, Miss Mary Jones, Colonel Luke Tate, Mr. Albert Jones, Mr. James Brown and Dr. John Turk, spent an evening delightfully at the Fields farm near town this week.

Fiendish Suffering

Is often caused by sores, ulcers and cancers, that eat away your skin. Wm. Bedell of Flat Rock, Mich., says: "I have used Bucklen's Arnica Salve for ulcers, sores and cancers. It is the best healing dressing I ever found." Soothes and heals cuts, burns and scalds. 25c at all drug stores; guaranteed.

Origin of Graft.

Municipal corruption of various kinds is generally indicated by the word "graft." The origin of this term is obscure, but it is believed to have arisen from dishonesty in lowlier spheres. Bartlett's Dictionary of Americanisms defines "grafting" as pocket picking, and Hotten's Slang Dictionary suggests that the slang use of "graft" might be a corruption of "craft" or a generalization from the special work of gardening.

Moisture and Temperature.

A cubic foot of air at the temperature of zero (Fahrenheit) can contain only .5 of a grain of water vapor; at 32 degrees it can hold 2.13 grains; at 65 it can contain 6.8 grains, and at 98 it can hold 18.96 grains of moisture in suspension. These figures go to show that summer air can hold at least nine times the quantity of dampness that air can when reduced to the temperature of freezing.

CLEMENTINA GONZALES, OF CENTRAL AMERICA, RESTORED TO HEALTH. PE-RU-NA THE REMEDY

Miss Clementina Gonzales, Hotel Provincia, Guatemala, C. A., in a recent letter from 247 Cleveland Ave., Chicago, Ill., writes:

"I took Peruna for a worn-out condition. I was so run down that I could not sleep at night, had no appetite and felt tired in the morning.

"I tried many tonics, but Peruna was the only thing which helped me in the least. After I had taken but a half bottle I felt much better. I continued its use for three weeks and I was completely restored to health, and was able to take up my studies which I had been forced to drop. There is nothing better than Peruna to build up the system."—Clementina Gonzales.

Brokerage Firm Suspends.

New York, August 4.—J. H. Mansfield & Co., a brokerage firm, said to have been without exchange connections, which occupied a handsome suite within lower Broadway office building, has suspended and anxious creditors besieged the place yesterday seeking some explanation. No member of the firm could be found. The only consolation was a placard on the door, reading: "Business temporarily suspended; will resume in a few days." According to the firm's letter heads the concern was incorporated with a capital of $100,000. It had been in business only six months and catered largely to women, forty of whom gathered about the closed rooms and stared at the notice of suspension.

W. J. Bryan, Jr., in Hospital.

Chicago, August 4.—William J. Bryan, Jr., is lying at the Presbyterian hospital, where he underwent a surgical operation yesterday for the removal of an abscess on his right knee, brought about by inflammation that began with a corn on his foot. Young Bryan was brought to the hospital yesterday from Winona Lake, Ind., on a fast train. He is a student at a military academy. The hospital physicians announced that his condition was not dangerous, but that the prompt action in bringing him to Chicago for treatment, prevented a serious turn.

Tragedy at Jasper, Ala.

Birmingham, Ala., August 4.—A special from Jasper, Ala., says: John McQueen was shot and killed at Cedrom late yesterday afternoon by the sons of Nick Boshells, while McQueen was trying to kill their father. McQueen is said to have been firing into the Boshells home when the two young men shot him from the windows, his body being riddled with bullets. Mr. McQueen is said to have killed eleven men during his career, and was regarded as a dangerous character.

A GREAT EDUCATIONAL MOVEMENT!

A Magnificent Library Worth $500 Offered Free of Cost!

Unprecedented Offer that Promises to Prove Unusually Interesting.

Something SUN Readers Shoud Consider

Read the Following Details Carefully:

The Mystery Surrounding the Beautiful Display in G. W. HYDE'S Window Revealed in the following:

A number of our enterprising merchants have arranged what will prove to be a most interesting contest between the High School, Twentieth Century Club, Odd Fellows' Home, B. P. O. Elks, Volunteer Firemen, Masons, W. O. W., K. of P., Gainesville Guards, Kirby Smith Chapter or J. J. Finley Chapter of the U. D. C., or any church, Sunday school, hospital organization or institution you would wish to own the beautiful library valued at $500, now on display at G. W. Hyde's.

THE REWARD will be a magnificent library, consisting of 200 volumes of the standard subscription publications of the day as follows: The Great Chas. Dudley Warner "Library of the World's Best Literature," 46 volumes; "Library of the World's Greatest Classics," 30 volumes; the Anglo-American Dictionary and Cyclopedia, 12 volumes; Library of Oratory, by Depew, 15 volumes; Works of Balzac, 36 volumes; the Library of Poets, 32 volumes; the World's Best Essays, 10 volumes; History of Our Great Commanders, 12 volumes.

Each and every one of these books are specimens of the best mechanical execution, which examination will prove.

The conditions of the contest are as follows: Any lodge, church or school, club, hospital or organization, public or private, is eligible to the contest. Votes for individuals will not be counted. With each 10 cents purchase a ticket will be given by the merchant through whose liberality these grand libraries are furnished, on which will be written the amount of the purchase and the number of votes. The purchaser will write on the ticket the institution or organization for which he or she desires to vote, sign their name and deposit the ticket in the ballot box in the store in which the purchase is made.

The standing of the contestants will be published exclusively in each Sunday's issue of The Sun until October 14th, 1905, at 7 o'clock p. m., when the remaining votes will be counted, and the magnificent library awarded to the organization having the largest number of votes. The Sun will publish in each issue a coupon which will entitle the holder to two votes that will be credited to the institution that is written on space provided for same when delivered to the ballot boxes in either of the stores.

The Russians are so cold-blooded that it takes a long time for them to warm up for fighting. But it seems that Japan has given them a pretty good "warming-up heat."

Hoke Smith is said to be a part owner of the Piedmont hotel bar at Atlanta, and sells liquor to destroy homes and then gives to charity. Thus, he furnishes his own target for his charity practice.

Captain Mahan has written a critical article on the naval battle of the Sea of Japan. If he did as well as the battle of San Diago, there will not be a very great demand for it. His historical productions may not come up to his criticisms, however.

The Gainesville Graded and High School will be placed on the University list the same as many of the high schools of the State. This will give the young men a chance to prepare themselves at home for admission to the University, thus avoiding being sent to preparatory schools.

The Tropical Sun, published at West Palm Beach, will soon be published by an incorporated company of citizens of that place, and will become a purely local paper, no machine attachments, and continue to labor for the good of the city and county. The Tropical Sun is needed in that locality for the growth of the crops, and it is also expected that its genial rays will aid the city in developing, the same as it has in the past. George C. Matthams will be president of the company, and Chas. B. Kendall will be vice-president and general manager. Mr. Kendall is a clever newspaper man, is thoroughly conversant with the ins and outs of a printing and publishing concern, and no better selection could be made for this position. We hope The Sun will never have a cloud to dim its rays.

FILTHY NEW ORLEANS.

The filth of New Orleans and the allowing of mosquitoes to propagate without the least interference is the cause of the outbreak of yellow fever in New Orleans. The places about the city where everything abounds except a pure atmosphere is the principle factor in the development of all that is vile.

H. Edward Milner, a refugee from New Orleans who has reached Cincinnati after passing through a great deal of hardship, to an Enquirer reporter related the following: "After nine years' residence in New Orleans, we have left it forever. It is the filthiest and the worst graft town in the United States. We sold out lock, stock and barrel, and have come to make our home in Cincinnati. New Orleans is filthier than was Havana under Spanish rule, for I was there for two months and know whereof I speak. As to graft, Philadelphia isn't a circumstance. The tax-payers have paid out many millions of dollars for the betterment of the city, but much of it has been squandered and passed into the pockets of the politicians.

"This yellow fever scourge seems like retribution. Some of the people are leaving without luggage, and yet a stranger entering the city would not know that the plague was abroad. Those who have to stay make light of the danger. The facts have been concealed. The fever has been there since the third week in May, and there have been over 800 cases. All classes are contracting the disease. Even the negroes. Most of the cases have been in the Italian and French quarters below Canal street, but four cases were reported in the fashionable section when we left Saturday. We had been in Vicksburg on a visit until a week ago, and did not know of the fever until we got back. We were not in the infected district, however. Our home was seven miles in one direction and five in another from any reported case."

Mr. Milner says the trip through Mississippi was shameful, and they were badly treated. Whenever they showed their faces at the screens in the Pullmans the people would squirt formaldehyde in their faces and would not allow them to enter the dining car.

FLAG ETIQUETTE.

When President McKinley was assassinated four years ago, says The Montgomery Journal, thousands of loyal Americans raised flags at half-mast over their places of business and let them fly by night and by day until they wore out. They undoubtedly thought they were showing respect to McKinley's memory, but they were not showing proper respect to the flag. The United States government displayed at that time its flags at half-mast from sunrise to sunset from the President's death to his burial. The government regulations provide that on the death of a president in office its flag shall be displayed at half-mast only one day.

In memory of the 350,000 union soldiers who lost their lives during the Civil War, on May 30, Memorial Day, each year the United States displays its flag at half-mast at all army posts, stations and national cemeteries from sunrise till midday. Immediately before noon a dirge is played by the band, or field music and the national salute of twenty-one guns is fired. At the conclusion of this memorial tribute at noon the flag is hoisted to the top of the staff and remains there until sunset. The idea is that the national ensign is too sacred an object to be long in mourning for any man or number of men, no matter how exalted their rank.

The flag reversed, with the union down, denotes distress. The flag on anything but a fort actually besieged, should never be displayed between sunset and sunrise.

When the flag is to be displayed at half-mast it is lowered to that position from the top of the staff. It is hoisted to the top before it is finally lowered.

The regulations of the board of education of Chicago are that the flag shall be displayed on all school houses on Monday morning during the school years and on legal holidays, excepting that flags must not be displayed during storms or whenever they are likely to injure or destroy the flag.

The Czar won't tell what "Bill and I" talked about when they took their cruise, and there is some worry lest they decided to go the limit.

An Error In English.

Even the greatest authors now and then make a little slip in their English. Thus Sir Walter Scott in his "Legend of Montrose" has this sentence: "But ere Montrose could almost see what happened Allan McAulay had rushed past him." The "almost" should come before "ere" in order to express the author's meaning.—St. Nicholas.

Lucky Man.

He (a former suitor)—So you are married after all. You told me once that you never intended to belong to any man. She—Well, that remark still holds good. "But your husband?" "Oh, he belongs to me."

Spanish Proverbs.

A Spanish proverb says that "he who makes himself all sugar the flies will eat up," but another observes, "He who makes himself all vinegar will never catch any flies."

Your Life Current.

The power that gives you life and motion is the nerve force, or nerve fluid, located in the nerve cells of the brain, and sent out through the nerves to the various organs.

If you are tired, nervous, irritable, cannot sleep; have headache, feel stuffy, dull and melancholy, or have neuralgia, rheumatism, backache, periodical pains, indigestion, dyspepsia, stomach trouble, or the kidneys and liver are inactive, your life-current is weak.

Power-producing fuel is needed; something to increase nerve energy—strengthen the nerves.

Dr. Miles' Restorative Nervine is the fuel you need. It feeds the nerves, produces nerve force, and restores vitality.

"When I began taking Dr. Miles' Restorative Nervine and Anti-Pain Pills I was confined to my bed. I had severe nervous spells, the result of two years illness with malaria. I gradually grew so weak that I was unable to sit up. The spells would commence with cold chills, and I would become weak and almost helpless. My circulation was poor. I had doctored right along but grew weaker and weaker. The Nervine seemed to strengthen me right away and my circulation was better. I have taken in all seven bottles of the Nervine, and I am entirely well."
ROSA E. WEAVER, Stuarts, Ia.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Organizing New Railroad.

Chicago, August 4.—Organization of the Mississippi Valley and Gulf railroad was begun here yesterday. W. I Allen being elected president, Theodore Rockefeller, vice president, and L. Gochanour, secretary-treasurer. According to Allen, the company is incorporated in Iowa and all the western Mississippi Valley states to the gulf with a capitulation of $50,000,000. It is planned, he said, to start the road from some point in Iowa on the Mississippi and engineers already are engaged in surveying for a right of way. Mr. Allen was formerly assistant general manager of the Rock Island and is said to have built a portion of the pere Marquette road.

Austria Not Encouraging Emigration.

New York, August 4.—Baron von Hengelmueller, the Austro-Hungarian ambassador, who arrived yesterday from Europe, denies that Austria-Hungary is encouraging emigration to the the United States. "There is a scarcity instead of a surplus of unskilled labor in Austria-Hungary," said he, "and farmers are having difficulty in getting enough help to harvest the crops There was an abundance of such labor but emigration has changed the situation entirely. Wages for unskilled labor have advanced so that they are now as high, practically, as in America, and there is no object for laborers to leave their native land."

The First French Navy.

Away back in the eighth century Charlemagne had organized a sort of coast guard by enrolling all the seaboard population who lived within one and a half miles of the shore, but with the dismemberment of the vast Carlovingian empire all dreams of naval greatness were dissipated. Long afterward Charles V. built some military nefs on the Atlantic, and Louis XI.'s galleys chased the Barbary pirates who infested the shores of the Mediterranean, but it was Francis I. apparently who first conceived the idea of a war fleet, purchased and equipped from the royal treasury.

He converted the small fishing village of Havre into a fortified port, which speedily attracted commerce to the mouth of the Seine, and he projected a scheme—which he did not live to realize—for the construction of an oceanic navy under canvas. "Fleets were massed in the Mediterranean," writes Mr. Norman in his "Corsairs of France," "and for the first time in history a French squadron, passing through the strait of Gibraltar, defeated an English fleet off Brest, and then, moving round to the eastward, drove off the blockading squadrons of Henry VIII. from Boulogne."

An Eloquent Criticism.

Theodore Thomas, in conducting an orchestra, seemed impassive, imperturbable. A writer in the Outlook commenting upon this says that he was apparently without passion or feeling, yet the appearance was not reality, and at one of Mr. Thomas' rehearsals it was fully contradicted.

At a certain point in the symphony the orchestra was playing in perfect time and tune, but with a certain mechanical effect which no one had noticed until Mr. Thomas suddenly rapped the music stand before him.

The orchestra stopped. Then with his hand he imitated the action of an organ grinder.

With only a word to indicate the bar at which the orchestra was to take up the music, he struck the rack before him for attention, and with a movement of his baton gave the signal.

The orchestra repeated the passage he had criticised by dumb show, and this time it played with spirit and fire.

A Silent Land.

In the rainless interior of Australia there is a silence of the grave. This deathlike silence has a peculiarly depressing effect. If two men are camped and one of them goes to a distant township to get provisions while the other remains behind to look after the camp, the man who is to remain says to his mate in forcible gold fields language, "Now, Bill, don't you be long away. You know what kind of a place this is to live in by yourself." If his mate is away for two or three days, the silence gets upon the man's nerves, and in the end he shouts in order to make a noise, and then he is afraid of the sound of his own voice.

Cinnamon.

Ceylon provides us with the bulk of our cinnamon, which is the aromatic bark of certain trees common to that island. The trees are never allowed to grow higher than ten feet. During the season of harvesting, of which there are two a year, the branches of three to five years' growth are cut down and the top surface of the bark scraped away. Then the bark is ripped up longitudinally into slices, which when exposed to the sun to dry curl up into quills. In the course of drying the oil, upon which the aroma and flavor depend, is diffused throughout the bark.

LINER INJURED IN BATTLE.

Ship Was Damaged by Shell from Russian Warships.

San Francisco, August 4.—Advices have been received here by the mail steamer Siberia just arrived from the Orient that the former Togo Kisen liner Nippon, was so badly damaged by the shells of the Russian warships in the battle of the sea of Japan that it was found necessary to run the battleship ashore to save her from being a total loss. She was one of Admiral Togo's scouting vessels and was the first to discover Admiral Rojestvensky's fleet on the morning of the great naval battle. It was while bearing the news to the Japanese fleet that the well known steamer met disaster.

Ever since the beginning of the war in the Far East the Noppon and her sister ships America and Hong Kong, formerly engaged in the trade between this city and the Orient have been doing duty for Japan as converted cruisers and scout ships. From all accounts the Noppon can be raised when she will again resume service on her old run.

Tragedy in Kentucky.

Louisville, Ky., August 4.—A special from Paducah, Ky., says that H. H. Lovoing, president of the Kentucky Mill and Lumber company, today shot and killed H. A. Rose, who, until last night had been president of the concern. Both men are prominent and the tragedy caused much excitebent It is said that Rose has been selling lumber by the carload in Chicago and keeping the money. The directors met last night, asked Rose to resign and elected Loving to succeed him. Loving was formerly cashier of the Globe Bank and Trust company. He refuses to make a statement.

Considering Arkansas Situation.

New York, August 4.—The laws and legislative committee of the national board of fire underwriters met here yesterday to consider the Arkansas situation. A motion was made to discontinue a test case brought in the name of a company transacted business in Arkansas a day after the trust law went into effect in order to make a foundation for the suit. Action on the proposal to drop the case was postponed, however, until later in the month. There was some informal discussion of the idea of cancelling out of Arkansas but this meeting seemed to think the case was not in the scope of the authorities.

A Worm Killer.

J. A. J. Montgomery, Puxico, Wayne county, Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them, which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is an excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms—it helps the child to perfect growth, wards off sickness. Sold by W. M. Johnson.

Russian Boats Attack Steamer.

Tokio, August 5—6 p. m.—It is officially reported that two Russian torpedo boat destroyers apeared off of Chung Ching, on the northern coast of Korea, at 4:40 o'clock this morning and attacked the Keisho, a small merchant steamer. The destroyers fired 60 shots, seven of which hit the port side of the engine rooms and bridge killing the captain and one boy and wounding two of the crew. The destroyers then ceased to fire and steamed toward Vladivostok at 5 o'clock. The Keisho was able to continue on her voyage and escaped.

Cured Hay Fever and Summer Cold.

A. J. Nusbbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

Force County into Bankruptcy.

New York, August 4.—Santa Fe county, N. M., whose indebtedness amounts to $1,000,000, may be forced into the hands of a receiver if negotiations now pending fail to satisfy the holders of its bonds who are taking steps to enforce the payment of the principal and interest due on which the county is alleged to have defaulted. Two banking houses in this city are the principal holders of the securities which are known as the railways and bonds have been issued to encourage the construction of railroads throughout the country.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, proprietor Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and $1. Sold by W. M. Johnson.

DOTHAN, ALA., JULY 18, 1899.

Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: We have been selling your Texas Wonder, Hall's Great Discovery, for two years and recommend it to anyone suffering with kidney trouble as being the best remedy we ever sold. Yours truly, J. R. YOUNG

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.

THE VAGRANCY LAW.

County and City Authorities Propose to Enforce it Rigidly.

People who have no visible means of support, idlers and those who throw their money away recklessly and foolishly, and frequent places of ill repute, will in future be subject to arrest and punishment by the county or city authorities.

Under the new vagrancy law, which went into effect on the 2nd inst., it does not require a warrant for the arrest of any person, male or female, but the officers are at liberty to run such persons as are known to be vagrants and lock them up, pending a hearing.

This section fortunately has few vagrants, as the people as a rule are industrious and energetic. Sheriff Fennell and Marshal Pinkoson, however, give warning that the law will be enforced, and those subject to arrest will govern themselves accordingly.

We have a quantity of old type metal for sale, which makes the Best Babbitt's Metal for babbitting machinery. Call early at The Sun office.

Remember the Gainesville & Gulf has round trip rates to White Springs on Sundays at only $1. Train leaves Gainesville at 8:30 a. m., returning at 9:30 p. m., and affording a whole day at this favorite resort. Cheaper than hiring a buggy, and passengers are enabled to spend a day on the banks of the famous old Suwanee river. tf.

A. M. Dickson, the clever traveling representative of the Consolidated Grocery Company, Jacksonville, and who makes his home in this city, left yesterday on a few weeks' vacation. He expects to sail on the Clyde steamer Monday for New York, and before returning to Florida will visit Buffalo, Niagra Falls and other points of interest.

Mr. and Mrs. T. O. Loveless of Tampa, who were married by Rev. T. J. Nixon of the Methodist church in this city Thursday morning, expect to make their departure this morning for Atlanta and other points, where they will spend their honeymoon, returning to Tampa via Gainesville in about two weeks. The bride was Miss Frankie May Owen, and is a niece of W. P. Carter, the family of whom she has been visiting here. While the marriage came as a surprise, there was no objection to the same, as both parties are well connected in Tampa.

Scuppernong Grapes.

Rev. F. M. Hartman of Paradise was in the city yesterday, and brought to The Sun office a sample of his purple scuppernong grapes that were very large, as well as of excellent flavor. Mr. Hartman has six different varieties—white, purple, green, etc., but the purple ones are very large, one measuring 3¼ inches in circumference. He expects to have about fifty bushels this year.

He also brought a twig from the "Wonderful Lemon" tree, which had several blossoms. This tree blossoms every month and has fruit at all seasons, and at the present time it has full grown lemons as large as a big pear, and from that down to the blossoms.

Mr. Hartman is quite a fruit grower at his home, and on his invitation we expect to be with him some day in Paradise.

Street in Bad Condition.

Property owners along West Main street, S., are making a vigorous protest against the condition of that thoroughfare from Masonic street south. The street, which has been in a dilapidated condition for several months, has been rendered almost impassable by the recent rains, and it is said that Chief O'Neill of the Gainesville Fire Department has instructed his men not to use the thoroughfare at all, as it endangers life and property.

It is to be hoped that the council will take some action in this matter at the meeting Monday night.

A Business Change.

There was an important business change in this city Friday, when George F. and J. Medley Mason purchased from M. F. McCook the stock and good will of the Gainesville Grocery, corner West Main, S., and Union streets.

The Gainesville Grocery is one of the oldest established and most up-to-date places of its kind in the city, and the new proprietors, both of whom are popular young men, will no doubt enjoy a fine trade.

Excursion Declared Off.

The excursion to St. Augustine on August 8 via the Atlantic Coast Line has been declared off, and those who anticipated a pleasant day's outing in the Ancient City will be compelled to wait if they desire to take advantage of an excursion rate.
